

Generate 2021 Awards Information & Nomination Form

Do you know someone who deserves special recognition for an outstanding achievement in the clean energy industry? Consider nominating them for a Clean Energy BC award!

CEBC presents five annual awards recognizing individuals and companies that have excelled in their field of discipline. The awards will be presented during the [Generate 2021 Conference](#) on November 24th at the Hyatt Regency Vancouver.

Nominations must be submitted to jack.magnus@cleanenergybc.org by October 22nd, 2021.

Award Categories

Environmental Stewardship & Community Improvement Award

This award recognizes exceptional accomplishments on the part of individuals or companies in contributing to environmental stewardship, sustainable development, and community improvement.

Examples of nomination qualifications include:

- a) Designing community facilities to minimize environmental impact
- b) Designing environmental or community programs
- c) Promotion of/involvement in achieving community goals

Project Excellence Award

This award recognizes excellence in project development, construction, or operations. Available to operating companies only, this award also recognizes the value of teamwork in project execution. The awards committee will measure excellence based on the quality of the accomplishment, ability to meet budget, schedule, and performance criteria. Innovation can contribute to successful project execution but is not essential criteria for this award.

Finance Award

This award recognizes excellence in the financing sphere and is open to both individuals and companies. Financing includes the raising of capital for equity or debt. The awards committee will focus on efficiency of the capital raise, cost of the financing, and innovative financing solutions.

Community of the Year Award

This award recognizes excellence by a community engaged in the development of clean energy in British Columbia. The award acknowledges excellence in all aspects of community engagement, including education, awareness, and involvement in a clean energy project.

Operational Excellence Award

This award recognizes excellence and innovation by a company engaged in the operation of a clean energy project in British Columbia. The award is open to either owner/operators or service providers and acknowledges excellence and innovation in all aspects of operations, including project optimization, health and safety, community outreach and/or development of innovative solutions to operational challenges.
